

Meat And Bone Meal

Meat And Bone Meal

High-Quality Animal Feed Ingredient

What is MBM?

Meat and Bone Meal is a highly nutritious and economical protein source derived from animal tissues. It is a rendered product made from slaughter by-products — including trimmed meat, non-edible parts, organs, and select carcasses — which are carefully processed under controlled conditions.

Why choose our MBM?

- ▶ 100% Argentina Beef Origin – Sourced from premium raw materials
- ▶ High Protein Content – Ranges from 40% to 55%, ideal for balanced nutrition
- ▶ Rich in Calcium & Phosphorus – Supports bone development and overall health
- ▶ Highly Digestible – Minimum 90% digestibility, ensuring efficient absorption
- ▶ Salmonella-Free & BHT Treated – Ensuring safety and extended shelf life
- ▶ Non-GMO – Natural and safe for all animal species

MEAT AND BONE MEAL – TECHNICAL SPECIFICATIONS

(All values in percentage unless otherwise indicated)

COMPONENT	40–45% Proteins	45–50% Proteins	50–55% Proteins
PROTEINS	40–45%	45–50%	50–55%
MOISTURE (Max.)	5%	5%	5%
FAT CONTENT	10–12%	10–12%	10–12%
PHOSPHORUS	4–7%	4–7%	4–7%
CALCIUM	8–13%	8–13%	8–13%
ASH (Max.)	40%	36%	32%
FIBER (Max.)	4%	4%	4%
#10 SIEVE (Max.)	5%	5%	5%
FREE FATTY ACIDS (Max.)	5%	5%	5%
DIGESTIBILITY (Min.)	90%	90%	90%
SALMONELLA	ABSENT	ABSENT	ABSENT
PEROXIDES (Max.)	15 mEq O ₂ /kg fat	15 mEq O ₂ /kg fat	15 mEq O ₂ /kg fat

Notes

Product treated with BHT. Maximum dosage: 200 ppm.
Salmonella ide: formaldehyde – propionic acid. Maximum dosage: 4 L/ton
